Roulette computers are hidden electronic devices that predict where the ball will land. They calculate the speed and deceleration of ball and wheel to determine the approximate winning wheel sector.

Roulette Computers That Beat Roulette

The frontal lobe of the human brain is both relatively large in mass and less restricted in movement than the posterior portion of the brain. It is a component of the cerebral system, which supports goal directed behavior. This lobe is often cited as the part of the brain responsible for the ability to decide between good and bad choices, as ...
